Pitch board (Cyberware.com)

Short pitch: Cyberware is an online team of cybersecurity fanatics here to serve you to create a better and safer environment while being online.

Long pitch: Cyberware is a 24/7 online company that protects people from any cyber-attack. This could be data breaches, website/email scams, hacking into systems, etc. We are there to protect and serve anybody or any company that needs a team of cybersecurity analysts that will protect you. We analyze the situation and do everything that we can to help you fight back against these data hackers. Don't feel safe being online? Don't worry we have that covered as well as we are working on a project that will protect all your online devices from the dangers of being online. We want to provide our customers with the best, safest, and most positive experience.

Personas:

Cybersecurity Recruits: People willing to learn and contribute to the cybersecurity field.

Cyber Victims: Anybody that has had their data breached or hacked.

Cyber Eye Users: For anybody that wants to or has downloaded our software to protect them from cyber-attacks.
